

**Pat Heung Central Primary School  
School Notice 04/2018**

3<sup>rd</sup> September, 2018

Dear Parents/Guardians,

**Charge for Accident and Emergency (A&E) Services**

The Government has approved the introduction of fees for A&E services at a rate of \$180 per attendance for Hong Kong permanent residents. The arrangement of the levy of A&E charge on students is as follows:

- On arriving the A&E Department of public hospitals, the duty nurse will provide professional medical treatment to students as the prevailing practice.
- A “Payment Advice” will be issued to the student concerned. In case students or their parents are unable to pay at that moment, they can get the Payment Advice to settle the payment at their convenience.
- For patients who are unable to pay the A&E charges due to financial difficulties, they can apply for fee wavier through the Medical Social Workers in public hospitals under the existing waiving mechanism.

Under the guidance of Hospital Authority and EDB, we will inform parents immediately when students are sick or get injured. If students are in serious clinical condition, our school will call ambulance immediately with the company of teachers or staff. However, the fee for A&E Department should be paid by students or parents themselves.

Thank you very much for your attention on the above matter.

Yours sincerely,

Ms Irene Lai  
(Principal)
